

## **PYC Therapeutics Invited to Participate in RNA Panel at 2021 BIO CEO & Investor Digital Conference**

**PERTH, Australia and NEW YORK, New York – February 11, 2021** – PYC Therapeutics (ASX: PYC), a biotechnology company developing a new generation of precision RNA therapeutics to change the lives of patients with inherited diseases, today announced that Sahm Nasser, incoming Chief Executive Officer of U.S. Operations, has been invited to participate in a virtual panel discussion and Q&A at the 2021 BIO CEO & Investor Digital Conference. The panel, titled “Turning RNA Research into Medicines,” will be aired on Wednesday, February 17, at 3:00 p.m. ET.

BIO CEO & Investor Conference attendees can register for the panel and Q&A by visiting <https://www.bio.org/events/bio-ceo-investor-digital-conference/sessions/765779>.

An archived recording of the panel will be shared with all conference attendees for on-demand viewing for approximately 30 days following the event. The Company will also make the recording available on the PYC website in the near future.

### **More About BIO CEO & Investor Conference**

For more than 20 years, the BIO CEO & Investor Conference has fuelled biotech industry networking with premier investor and banking communities, focused on established and emerging publicly traded and select private biotech companies. The virtual 2021 event, taking place February 16–18, will showcase the Biotechnology Innovation Organization’s (BIO) perspective on the new U.S. Congressional agenda, the record setting pacing of biotech IPOs and the hottest clinical developments and industry catalysts.

### **About PYC Therapeutics**

PYC Therapeutics (ASX: PYC) is a development-stage biotechnology company pioneering a new generation of RNA therapeutics that utilize Cell Penetrating Peptides (CPPs), a revolutionary delivery technology designed to overcome the major challenges of current gene-based therapies. PYC believes its CPP technology provides safer, more effective access for a wide range of potent and precise drug cargoes to the highest value drug targets that exist inside cells. The Company is leveraging its leading-edge science to develop a pipeline of novel therapies with an initial focus on inherited eye diseases for which it has unveiled three preclinical stage assets. PYC’s discovery and laboratory operations are located in Australia and the Company recently launched an expansion into the U.S. for its preclinical, clinical, regulatory and business development operations.
