

## **PYC Therapeutics to Participate in the Evercore ISI GenomeRx Emerging Therapeutic Company Day**

**PERTH, Australia and NEW YORK, New York – May 26, 2021** – PYC Therapeutics (ASX: PYC), a biotechnology company developing a new generation of precision RNA therapeutics to change the lives of patients with inherited diseases, today announced it will participate as one of a select group of companies at the upcoming Evercore ISI GenomeRx Emerging Therapeutic Company Day, taking place virtually on June 3. Evercore ISI is a leading healthcare investment bank in the U.S.

Members of PYC’s management team will participate in one-on-one meetings with U.S. biotech and life science investors at the event.

### **About PYC Therapeutics**

PYC Therapeutics (ASX: PYC) is a development-stage biotechnology company pioneering a new generation of RNA therapeutics that utilize PYC’s proprietary library of naturally derived cell penetrating peptides to overcome the major challenges of current genetic medicines. PYC believes its PPMO (Peptide conjugated Phosphorodiamidate Morpholino Oligomer) technology enables a safer and more effective RNA therapeutic to address the underlying drivers of a range of genetic diseases for which no treatment solutions exist today. The Company is leveraging its leading-edge science to develop a pipeline of novel therapies including three preclinical stage programs focused on inherited eye diseases and a preclinical discovery program focused on neurodegenerative diseases. PYC’s discovery and laboratory operations are located in Australia, and the Company recently launched an expansion into the U.S. for its preclinical, clinical, regulatory and business development operations.
