

## **PYC Therapeutics Invited to Participate in the Oppenheimer Fall Healthcare Life Sciences & MedTech Summit**

**PERTH, Australia and SAN DIEGO, Calif. – September 15, 2021** – PYC Therapeutics (ASX: PYC), a biotechnology company combining two complementary platform technologies (selective drug delivery and precision drug design) to develop a new generation of RNA therapeutics to change the lives of patients with inherited diseases, today announced it will participate as one of a select group of companies at the upcoming Oppenheimer Fall Healthcare Life Sciences & MedTech Summit, taking place virtually on September 20–23, 2021.

Sahm Nasser, U.S. Chief Executive Officer of PYC, will present a corporate overview on Tuesday, September 21, 2021 at 4:35 p.m ET. Members of PYC's management team will also participate in one-on-one meetings with U.S biotech and life science investors.

A live webcast link of the Oppenheimer presentation will be available in the "Events" section of the Investor & Media Center page of the Company's website at <https://pyctx.com/investors-and-media/#events>. A replay of the presentation will be archived on the Company's website following the conference.

### **About PYC Therapeutics**

PYC Therapeutics (ASX: PYC) is a development-stage biotechnology company pioneering a new generation of RNA therapeutics that utilize PYC's proprietary library of naturally derived cell penetrating peptides to overcome the major challenges of current genetic medicines. PYC believes its PPMO (Peptide conjugated Phosphorodiamidate Morpholino Oligomer) technology enables a safer and more effective RNA therapeutic to address the underlying drivers of a range of genetic diseases for which no treatment solutions exist today. The Company is leveraging its leading-edge science to develop a pipeline of novel therapies including three preclinical stage programs focused on inherited eye diseases and preclinical discovery efforts focused on neurodegenerative diseases. PYC's discovery and laboratory operations are located in Australia, and the Company's preclinical, clinical, regulatory and corporate operations are based in San Diego, California.
