About PYC Therapeutics

PYC Therapeutics (ASX: PYC) is a clinical-stage biotechnology company creating precision medicines for patients with major unmet needs in genetic disease. The Company's platform combines a novel drug delivery technology with the rapidly growing RNA therapeutic class to create a pipeline of first-in-class drugs that address the root cause of the targeted disease.

The Company was the first to progress a drug candidate for a blinding eye disease of childhood into human trials and is now progressing multiple 'fast-follower' programs into the clinic. For more information, visit pyctx.com, or follow us on [LinkedIn](#) and [Twitter](#).
